

## Supply Chains Never Stop Advancing – Neither Should You

**CLTD: The premier certification for logistics, transportation and distribution professionals.**

**Why you should earn the CLTD designation:**

- Gain recognition in the field as a logistics expert
- Build credibility and set yourself apart from peers
- Learn latest trends in global supply chain logistics
- Impact your organization's bottom line
- Demonstrate logistics mastery of knowledge

This course will introduce the foundations of planning and control in distribution and logistics, along with concepts of supply chain management (SCM), and application of distribution requirements planning (DRP). Though discussion and problem-solving, participants will learn about the role of logistics and supply chain management and participate in distribution priority and capacity planning techniques.
