

## Supply Chains Never Stop Advancing – Neither Should You

### CSCP: Certified Supply Chain Professional

#### Validate your ability to lead

Supply chains drive growth and are proving to be the central nervous system of a business. Good leaders are key to ensuring the supply chain organization is performing at its peak and contributing to the health of the business. The APICS CSCP certification program helps professionals demonstrate essential knowledge and organizational skills for developing more streamlined operations. Master supply chain management best practices with specialized, high-level knowledge and skills.

APICS CSCP education is essential if you are:

- Interested in increasing your knowledge and expertise in the field of global supply chain management, specifically in the areas of customer relations, international trade, information technology enablement and physical logistics
- Consulting or facilitating supply chain functions or working with enterprise resources planning systems
- Creating a common standard of understanding, vocabulary, resources and frameworks within your company to address your supply chain challenges and opportunities

## On-Line Education for your Professional Development

[ASCM Seattle Chapter - Home Page](#)

Preferred by employers worldwide, an APICS CSCP designation will help you:

- Master the necessary tools to effectively manage global supply chain activities, including suppliers, plans, distributors and customers around the globe
- Acquire the skills you need to create consistency and foster collaboration through best practices, common terminology and corporate communication

**Saturday mornings, 8:00am - Noon Pacific Time**

10-Sessions for 40-hours of certification preparation

September 18 - November 20, 2021
